# Syracuse University
# Department/Program Student Learning Outcomes Survey

Please respond to the questions on this form in reference to department/program activities and not individual courses.

The following department/program information is currently on file in the Office of the Associate Provost, Academic Programs. *Note that the number of fields is not necessarily indicative of the number of programs in your department/program but rather the fields are to accommodate responses from department/programs that may have a larger number of degree programs.

For the purposes of this survey, student learning outcomes refer to the desired knowledge, skills, abilities, capacities, attitudes, or dispositions students acquire by completing a specific program of study in your department (for example, a Bachelor of Arts or Science degree in x).

1. Please indicate whether student learning outcomes have been identified for programs in [department/program]:

| | Identified student learning outcomes: | | | |
|---|---|---|---|---|
| | Yes | No | Unsure | This program is not active |
| Each program listed separately by degree | [ ] | [ ] | [ ] | [ ] |

2. Please identify a contact person who can provide student learning outcome information for each of the following programs in [department/program]. If a program is not active, please leave the contact fields blank.

| | Name | Email Address |
|---|---|---|
| Each program listed separately by degree | [ ] | [ ] |

3. What student learning outcomes data does your department/program already have?

4. Please identify your current department/program assessment activities and the data you use to determine necessary changes.

5. Based upon information that your department has discussed, what actions has your department/ program taken to enhance student learning?
